Little baby

I want you for my own

But I never see you, see you alone

There's always someone beside you

Yes, there's always someone in your arms

Little baby

If only I had known

That I might not be, be alone

Darling, I'm sorry

Sorry I hurt you

Please come back to me

You know I'll be true

But, there's always someone beside you

Yes, there's always someone in your arms

Little baby

If only I had known

That I might not be, be alone
