

# Monkey See, Monkey Do

Samantha Fish

Don't think on it now baby oh no don't take no advice  
Don't even look back now baby oh don't even think twice  
I'm not telling you now you know oh cause you know it all  
You think it's so easy easy oh to catch ya when you fall

You don't care monkey see monkey do  
Every hoop you just jump right through  
All your business babe it ain't nothing new  
You let them dig that hole for you

It's a new high a new low oh oh how does it feel  
Everything you think you wanted oh no no it ain't real  
I'm gonna get by this time even though you slipped away  
But mark my words when you learn you're gonna miss me some day

You don't care monkey see monkey do  
Every hoop you just jump right through  
All your business babe it ain't nothing new  
You let them dig that hole for you

Don't think on it now baby oh no don't take no advice  
Don't even look back now baby oh don't even think twice  
I'm not telling you oh no cause you know it all  
You think it's so easy easy to catch ya when you fall

You don't care monkey see monkey do  
Every hoop you just jump right through  
All your business babe it ain't nothing new  
You let them dig that hole for you
