

Road Runner

Samantha Fish

He left me waiting by a red light
I think about him every night
Road runner
Road runner
I wanted to keep him to myself
He put my heart up on a shelf
Road runner
Road runner

He's gonna run
All over you... all over you
All over you... all over you

Count tears while the cigarettes burn
I was a fool to think he'd return
Road runner
Road runner
Break my heart and set me free
I strike a deal with my memories
Road runner
Road runner

He's gonna run
All over you...
All over you... all over you

I'ma go the way I should
My heart lies underneath the hood
Road runner
Road runner
I'm picking out and making tracks
When the dust settles I ain't coming back
Road runner
I'm a road runner

I'm gonna run
All over you...
All over you... all over you
I'm gonna run
All over you now, baby
I said run
I gotta, I gotta
Run all over you
I said now hey
Whoa... whoa...
All over you

Waking up and making tracks
When the dust settles I ain't coming back
