

Go For The Heart

Samantha Fox

I get home, been goin' all night long
I've got ringing in my ears,
And I'm feeling all my fears.
I can't sleep 'til dawn
Just can't get my body warm,
They say take one more step
We must face ahead.

Go for the heart...
So I'm washing my hands of this love affair,
Go for the heart...
My times run out and I just don't care
Go for the heart...
You took everything that I ever had,
Go for the heart.

I've been living day to day
And I constantly wonder,
What's coming my way?
We ain't getting any younger.
I'll even wait for you,
But you're not helping me.

Go for the heart...
So I'm washing my hands of this love affair,
Go for the heart...
My times run out and I just don't care
Go for the heart...
You took everything that I ever had,
Go for the heart.

They say take one more step
We must face ahead.

Go for the heart...
So I'm washing my hands of this love affair,
Go for the heart...
My times run out and I just don't care
Go for the heart...
You took everything that I ever had,
Go for the heart
