

# Touch Me (I Want Your Body)

Samantha Fox

Full moon in the city  
And the night was young  
I was hungry for love  
I was hungry for fun

I was hunting you down  
And I was the bait  
When I saw you there  
I didn't mean to hesitate

This is the night  
This is the night  
This is the time we've got to get it right

(This is the night)  
Touch me, touch me  
I want to feel your body  
Your heart beat next to mine  
(This is the night)  
Touch me, touch me now

Quick as a flash you disappeared into the night  
Did I hurt you boy?  
Didn't I treat you right?  
You made me feel so good  
Made me feel myself  
Now I'm alone & you're with somebody else

This is the night, yeah  
This is the night  
This is the time we've got to get it right

(This is the night)  
Touch me, touch me  
I want to feel your body  
Your heart beat next to mine  
(This is the night)  
Touch me, touch me now  
Touch me, touch me now  
Touch me, touch me now

Hot & cold emotions confusing my brain  
I could not decide between pleasure & pain  
Like a tramp in the night  
I was begging for you  
To treat my body like you wanted to

Uh....  
Uh, it's begging for you

(This is the night)  
Touch me, touch me  
I want to feel your body  
Your heart beat next to mine  
(This is the night)  
'Cos I want your body all the time

(This is the night)  
Touch me, touch me  
I want to feel your body  
Your heart beat next to mine  
(This is the night)  
'Cos I want your body all the time
