Boy, No matter what we go through You step up, I'll step up too It don't matter what the haters say As long as you are my boo

No matter how hard it gets This love will have no regrets As long as when we Stepping on the dance floor It's me and you

Feel the rhythm of the beat
That's my heart
Cupid shot me with an arrow
From the start
And you know that it's your love that's got me trapped
Every time I try to leave, you bring me back

So much harder at times I cried a river You dried my eyes and brought me back laughter And when I lay next to you I want to wake up And when I break up It's only to make up

Boy, No matter what we go through You step up, I'll step up too It don't matter what the haters say As long as you are my boo

No matter how hard it gets This love will have no regrets As long as when we Stepping on the dance floor It's me and you

And if we don't step up We'll lose our groove So confused, don't know which way to move Hold my hand and let me know that you feel me too Look into my eyes and tell me Baby I love you

You'll never get wet 'Cause I'll be your umbrella And we can make it through any kind of weather If you step up I'll step up Boy 'Cause I'm trying to be with you forever Boy, No matter what we go through You step up, I'll step up too It don't matter what the haters say As long as you are my boo

No matter how hard it gets This love will have no regrets As long as when we Stepping on the dance floor It's me and you

And when the symphony plays, I feel my feet Lifting from underneath You grab my hand Spin me around And right before I fall You catch me and you say Baby, it'll be okay Just look into my eyes and we will make another day

Boy, No matter what we go through You step up, I'll step up too It don't matter what the haters say As long as you are my boo

No matter how hard it gets This love will have no regrets As long as when we Stepping on the dance floor It's me and you

Boy, No matter what we go through You step up, I'll step up too It don't matter what the haters say As long as you are my boo

No matter how hard it gets This love will have no regrets As long as when we Stepping on the dance floor It's me and you
