

# Sweet Talk

Samantha Jade

Oh baby when you're next to me  
I feel like I'm in ecstasy  
(Uuh-uh)  
Oh baby when you look my way  
I hear the things you want to say  
(Uh-huh)

And when your body moves close to mine  
I get the rush I can't describe  
When you get my heart beating like  
(Oh baby, oh baby)  
You should how to read my mind  
Telling you it's about that time  
And nothing could be better

I want your sweet talk  
Talking to me all night  
Filling me with love  
What's love without your sweet talk?  
Keep me going, don't stop  
Till we turn the lights back on  
Baby, I want you to  
Swee-ee-ee-ee-eet talk to me  
Swee-ee-ee-ee-eet talk to me  
Swee-ee-ee-ee-eet talk to me  
The sweetness on your lips  
I need a taste of it

Don't need a things to play  
Your sugar always gets me so high  
(Uuh-uh)  
Had a fantasy  
I'm living out in my wildest dreams  
(Yeah-ee-yeah)  
When your fingers touch my neck  
I start to lose my breath  
And when you kiss me just like that  
(Oh baby, my baby)  
Cause you know how to read my mind  
Telling you it's about that time  
And nothing could be better

I want your sweet talk  
Talking to me all night  
Filling me with love  
What's love without your sweet talk?  
Keep me going, don't stop  
Till we turn the lights back on  
Baby, I want you to  
Swee-ee-ee-ee-eet talk to me  
Swee-ee-ee-ee-eet talk to me  
Swee-ee-ee-ee-eet talk to me  
The sweetness on your lips  
I need a taste of it

Ye-ye-yeah-ee-eah  
Swee-ee-ee-ee-yeah-ee-eah

Talk to me  
Talk to me  
Ooh-aahhh...

I want your sweet talk  
Talking to me all night  
Filling me with love  
What's love without your sweet talk?  
Keep me going, don't stop  
Till we turn the lights back on  
Baby, I want you to  
Swee-ee-ee-ee-eet talk to me  
Swee-ee-ee-ee-eet talk to me  
Swee-ee-ee-ee-eet talk to me  
The sweetness on your lips  
I need a taste of it

Swee-ee-ee-ee-eet talk to me (talk to me)  
Swee-ee-ee-ee-eet talk to me (talk to me)  
Swee-ee-ee-ee-eet talk to me (yeah-ee-yeah)  
The sweetness on your lips  
I need a taste of it
