When I Was Young

Samantha Jade

Where did the time go? Travelling the same road
Been here over and over, seems like it's all that I know
There's light in the dark now, I'm letting the stars out
Now the world's getting older, it rolls off my shoulder undone

So I'm gonna sing at the top of my lungs
Like when I was young, when I was young
Gonna take the words that broke my bones
Turn them into songs, turn them into song

When it's my time to go
I gotta know, I did everything that I can
Gonna sing at the top of my lungs
Like when I was young, when I was young

Beautiful mistakes, painted in heartbreak
If I uncomplicate it, it's not complicated they say
So I leave them all unread, find a way out of my head
And I'm losing my bagagge, packing my suitcase instead

So I'm gonna sing at the top of my lungs
Like when I was young, when I was young
Gonna take the words that broke my bones
Turn them into songs, turn them into song

When it's my time to go
I gotta know, I did everything that I can
Gonna sing at the top of my lungs
Like when I was young, when I was young

So I'm gonna sing at the top of my lungs
Like when I was young, when I was young
Gonna take the words that broke my bones
Turn them into songs, turn them into song

When it's my time to go
I gotta know, I did everything that I can
Gonna sing at the top of my lungs
Like when I was young, when I was young
