

Find a Way

Samantha James

Oooh, oooh, ooh
oooooooooh, ooooooooooh, ooooooooooh
oh, oh

There seems to be
Somewhere far away from here
Another time where we found love
I can't forget you

Even if you say to me
"I don't know if I can make it"
I know that you move the fire
And I know he'll find a way

Even when the sun fades
And clouds stay
With you
I know he'll find a way

Even when I feel alone
And nights grow cold
With you
I know he'll find a way

Even when the sun fades
And clouds stay
With you
I know he'll find a way

Even when I feel alone
And nights grow cold
With you
I know he'll find a way

Let go indeed
Watch everyday become a dream
Walk into these arms you need
And just let me take you

Even if you say to me
"I don't know if I can make it"
Just listen to the voice inside you
And I know he'll find a way
Oh, little body feed the fire
And I know he'll find a way

Even when the sun fades
And clouds stay
With you
I know he'll find a way

Even when I feel alone
And nights grow cold
With you
I know he'll find a way

Even when the sun fades

And clouds stay
With you
I know he'll find a way

Even when I feel alone
And nights grow cold
With you
I know he'll find a way

Even though the summer ends
I can hear you calling out
His fire still brings night and day
A thousand miles away

I know we'll find a way
I know we'll find a way
I know we'll find a way
I know we'll find a way

I know we'll find a way
Know we'll find a way
I know we'll find a way
I know we'll find a way
