

# I found you & Celso Fonseca

Samantha James

Now that I found you  
Let the truth remind you  
Now that I found you  
Only love surrounds you

Now that I found you  
Let the truth remind you  
Now that I found you  
Only love surrounds you

I can't seem to remember the feeling we get  
But I'm hearing it call my name  
I've been waiting for so long to understand  
That it takes time to come again  
That it takes time to come again

Now that I found you  
Let the truth remind you  
Now that I found you  
Only love surrounds you

Now that I found you  
Let the truth remind you  
Now that I found you  
Only love surrounds you

I've been waiting for so long to feel this way  
And it's easy to understand  
I see something in your eyes I can't forget  
And I know that you see the same  
I know that you see the same

Now that I found you  
Let the truth remind you  
Now that I found you  
Only love surrounds you

Now that I found you  
Let the truth remind you  
Now that I found you  
Only love surrounds you

Now I finally see the truth in my life  
Now that I found you I can feel the sun come alive  
Now I finally see the truth in my life  
Now that I found you I can feel the sun come alive
