

Process

Samantha Mumba

Let me tell you, let me tell you now
It gets better, it gets better somehow
When your life is overwhelmed with doubt
Know there's always gonna be a way out

If you're having problems and you need to solve them
Let me just dissolve them for you

If I can be honest
It takes some time to process
Every step is progress
It gets better, I promise
If I can be honest
It takes some time to process
Every step is progress
It gets better, I promise

Let me show you, let me show you how, woah woah
It gets better, it gets better somehow, somehow, ooooooh
When you're feeling like you're under clouds, oh
The rain is coming to wash you out

If you're having problems and you need to solve them
Let me just dissolve them for you

If I can be honest
It takes some time to process
Every step is progress
It gets better, it gets better, much better, yeah
If I can be honest
It takes some time to process
Every step is progress
It gets better, I promise you, yeah

If I could be honest with ya
It takes some time to process
Every step is progress
It gets better, I promise, yeah
If I can be honest
It takes some time to process
Every step is progress
It gets better, I promise, yeah

If I can be honest
It gets better, I promise
It gets better, I promise
If I can be honest
It gets better, I promise
It gets better, I promise
Yeah yeah yeah yeah
