Loop

Samara Cyn

Mm-mm, ooh-ooh, yeah, woah

It go break up, cry, make up, fuck, sleep
Wake up, do it all again over you
Do it all, I'm stuck in your loop
I can't argue with you 'cause I know how you do
Break up, cry, make up, fuck, sleep
Wake up, do it all again over you
Do it all, I'm stuck in your loop
I can't argue with you 'cause I know how you do

Green light, red flag, gaslight, right back
Now you coming over night
Yeah, you a baller, shot caller
'Cause you always talk about it
If you got it, how you end up in my bed?
How you end up in my bed?
And then go stirrin' shit like pasta, dreadin' you like rasta
Lil' goofy bitch, but you be on some goofy shit
Back like a boomerang 'cause I know how you slangin' dick
Making that vibe 'til you do some more stupid shit
And you know I'm stuck on stupid, but I'm stuck with you
And you do just what you want 'cause I'm in love with you
Or you do just what you want 'cause I'm in love with you

Break up, cry, make up, fuck, sleep
Wake up, do it all again over you
Do it all, I'm stuck in your loop
I can't argue with you 'cause I know how you do
Break up, cry, make up, fuck, sleep
Wake up, do it all again over you
Do it all, I'm stuck in your loop
I can't argue with you 'cause I know how you do

Certified, down right, real tight, woman when I'm away from you
Knock me off my pedestal
Under you, now I'm back out my skin
Can't get you out of my head when you in
Justify all of your crimes when you in it
Hear the choir saying can I get a witness?
Know you leavin' in the mornin'
Beef through lunch, dinner time now you want it
Your ego fragile, should've came with the warning
Love addicted, shit, it came with some side effects
Higher blood pressure, deep withdrawals, and a side of stress
Wheel of misfortune, pedal right back like a cyclist

Break up, cry, make up, fuck, sleep
Wake up, do it all again over you
Do it all, I'm stuck in your loop
I can't argue with you 'cause I know how you do
Break up, cry, make up, fuck, sleep
Wake up, do it all again over you
Do it all, I'm stuck in your loop
I can't argue with you 'cause I know how you do
