

## pride's interlude

Samara Cyn

Where is my mind? I don't think I've been here before  
Look at the time, I should've left here hours ago  
I saw the signs, I didn't know that loving you would be so hard  
You're just like me, reflection shining bright in our two-edged sword

(Give life away)  
(Give love away)  
(Give pain away)

I took a sip and felt the warmth of coffee mug  
A long night pondering so I had called you up  
I said I'm waiting here for you to show me something  
Addicted to your approval, my choice of drug  
It take me higher than your hugs  
Makes me feel closer than your hugs, baby  
I've heard of purity, I've felt it in the sun  
Love is in the air and it's burning up my lungs, baby (Uh)

See, how you lose something you ain't never had?  
Steez Queen, that's why it came as a surprise you ain't want be with  
me  
Ego lead perception, you can leave blame on the vanity  
Blind faith in your pride and you throw shade like a canopy  
The biggest L was losing me  
The higher ups be choosing me  
Too focused on a bag to get technical in calamities  
I been doing great and my momma still stay in Tennessee  
You still ain't shit and need to work on your delivery  
I miss ya  
I don't know why I diss ya  
I guess I'm offended that you switched up to acting distant  
In love with the idea of you than what was in my vision  
I been heating up and you too cool to be in kitchens  
I get it

(Give joy away)  
(Give life away)  
(Give love away)  
(Give pain away)  
Where is my mind?  
You're just like me (Is my mind I don't think I've been here before)  
Reflection in a two way sword  
I should've left here hours ago  
I didn't know that loving you would be so hard

Where is my mind?  
Where is my mind?  
I should've left  
Where is my mind?  
Where is my mind, my mind my mind?
