

One Life, One Love

Same Difference

In the autumn, we'll remember
All the precious gifts you gave
Life and love and endless kindness
And the lives and loves you saved

There are songbirds there to guide us
Nightingales to show the way
Through the darkness they're beside us
Leading to the light of day

One life, one love
One people forever
Our lifetime moment now
And we'll show how all together

It's the springtime of affection
Everyday our grace renewed
Rainbow angels formed a nation
Now we'll sing our gratitude

One life, one love
One people forever
Our lifetime moment now
And we'll show how all together

Only one life to live
Only one heart to give
Know that our love will go with you

Good and bad times we will live through
Though sometimes we'll be apart
Through the winter, we'll get stronger
I can feel it in my heart

One life, one love
One people forever
Our lifetime moment now
And we'll show how all together
And we'll show how all together
