

Grounded

Sami Yusuf

When my head is down
And my wounds go deep
I could still go on
If you're there for me

Losing the crown
Would only keep me grounded
I know the fall
Could only keep me humble
Losing it all
Would only leave me grateful
I could take it
I would not break
If you're there for me
Solid ground for me

In a life before
Many years were bleak
But the highs were born
From the lows I've seen

Losing the crown
Would only keep me grounded
I know the fall
Could only keep me humble
Losing it all
Would only leave me grateful
I could take it
I would not break
If you're there for me
Solid ground for me
If you're there for me
My gravity

So come on keep me grounded
Keep me on my toes
When I'm losing my head
Keep me grounded
Come on keep me humble
Let me lose control
As long as you're there with me
I could free fall

Losing the crown
Would only keep me grounded
I know the fall
Could only keep me humble
Losing it all
Would only leave me grateful

I could take it
I would not break
If you're there for me
Solid ground for me
If you're there for me
Solid ground for me

If you're there for me
