

Carousel

Samia

Your eyes are upside down
You close them when the drums kick in
And it's your superpower
That no one knows you're listening

I've been rubbing together bramble
I wanna hitch my fire to your candle
Pretend to sleep in separate beds at Christmastime

You find solace in the horror
I hear your heart beat for Florida
All of your celebrity crushes
Are asymmetrical like me

I've been rubbing together bramble
I wanna hitch my fire to your candle
Waving at friends
Throw back my head on a carousel ride
