

Honey

Samia

Got a good feeling about this weekend
Do you wanna go to Baby's?
It's been a long week and I don't want to think
And Porches is playing
I've got my girls and a hopeful heart
We're singing along, "Can you do no harm?"
Whatever you want, it's at the bar
Nobody's gonna tell you who you are

It's all honey
Honey
It's all honey
It's all honey
Honey
It's all honey

I wanna go to the beach and die on the beach
I wanna be a mermaid
I'm not scared of sharks, I'm not scared to be naked
I'm not scared of anything
From under here, all you can hear
Is the distant boom of the Hell's Angels
From under here, all you can fear
Is being saved and being wakeful

And it's all honey
Honey
It's all honey
It's all honey
Honey
It's all honey

I'm gonna wear a little black dress in the middle of the street
Take my picture
And if you give me a beer I'll forget to watch what I eat and I don't care
All you can do from this hotel room is fantasize
All you can do when he needs you is close your eyes

And it's all honey
Honey
It's all honey
It's all honey
Honey
It's all honey

It's all honey
Honey
It's all honey
It's all honey
Honey
It's all honey

It's all honey
Honey
It's all honey
It's all honey
Honey

It's all honey

It's all honey

Honey

It's all honey

It's all honey

Honey

It's all honey
