

Making Breakfast

Samia

Watching the garden grow, happy, happy days
Got egg yolk on my bed, Chinese food on the way
Watching the garden grow straight into the sky
Got a candle by my window, it keeps me warm at night

Spending time together
Watch out, don't let it get you down
And nothing is forever, that's right
But don't let it get you down

And I'm sitting in the back of a limousine, just going to a show
Wishing you were here right next to me, aw, but you already know

That I'm the one who loves ya
Watch out, don't let it get you down
And there will be no other
That's right, don't let it get you down

Watching the garden grow, such a beautiful day
It's raining through the window, but I like it that way
Watching the garden grow the color of your eyes
Is changing with the season, and God only knows why

Spending time together
Watch out, don't let it get you down
And nothing is forever
That's right, but don't let it get you down
