

## Never Said

Samia

I never said nothing  
I never said nothing  
I never said nothing  
I never said nothing

I don't know where you heard it  
Don't know who's spreadin' it 'round  
All I know is I'm clean as a whistle, baby  
I didn't utter a sound

I never said nothing  
I never said nothing  
I never said nothing  
I never said nothing

I don't know what they told you  
Don't even care what about  
All I know is I'm clean as a whistle, baby  
I didn't let the cat out

So don't look at me sideways  
Don't even look me straight on  
And don't look at my hands in my pockets, baby  
I ain't done anything wrong

I never said nothing  
I never said nothing  
No, not to anyone  
I never said nothing  
I never said nothing  
I never said nothing  
I never said nothing  
No, not to anyone  
I never said nothing  
I never said nothing
