

Clean Up The Mess

Samiam

Cleaning up the mess that you made
Cleaning up the mess that you made
Cleaning up the mess that you made of me

This is gonna be
A better year for me
May not believe it but it's true
I'm not a scientist
Don't follow politics
Don't know how I know I just do

Cleaning up the mess that you made
Cleaning up the mess that you made
Cleaning up the mess that you made of me
Cleaning up the mess that you made
Cleaning up the mess that you made
Cleaning up the mess that you made of me

I have a tendency
Of being my worst enemy
But that's all over now
I've called a truce
Don't know if gods exist
Or if they'd give a shit
Bet money I'll be better off real soon

Cleaning up the mess you made
Cleaning up the mess you made
Cleaning up the mess you made of me
