

Natural Disasters

Samiam

The power lines are down
We're disconnected
City has become an inland sea
These natural disasters
Have left you stranded here with me

It's too late to leave now
The roads have washed away
It's too late to leave now
We've waited too long

Firestorms and atmospheric rivers
Flood waters carry sewage and debris
A garbage dump right outside your doorstep
Have left you stranded here with me

It's too late to leave now
We were so unprepared
It's too late to leave now
We've waited too long

You're stranded here with me
Oh, stranded here with me
Oh, you're stranded here with me
Oh, stranded here with me
Oh, stranded here with me
Oh, stranded here with me
Now you're stranded here with me
Stranded here with me
