

Something

Samiam

Try to wrestle a smile onto your face
If you wanna make it through the night
Better lower your expectations

Making it up as you go
Making a lot of excuses
Well, at least you're making something

I wanna be
Something I still wanna be
But I need
Something to believe in
I wanna be
Something I still wanna be
Just need something worth believing

Wanna get it over with
When you think about the future
Might be too late for you to change

And you know the longer you wait
The chances are getting slim
You'll ever be happy in the end

I wanna be
Something I still wanna be
But I need
Something to believe in
I wanna be
Something I still wanna be
Just need something worth believing

I need
I need something
To believe in

I need
I need something
To believe in
I need
I need something
To believe in

I need
I need something
I need
Something
