

## Stowaway

Samiam

Keep an eye out for the stowaway  
She can't afford it, but she's dreaming about another place  
Been hearing footsteps in the hallway  
You think you've found her, then she's gone without a trace

She will leave, disappear  
Just like that and not come back  
Never trace another tear  
Cross her hardened heart  
Off to see another world  
Maybe find a brand new love  
Maybe find someone to help her through eternal darkness

You keep an eye out for the stowaway  
She's around here somewhere, I just know she has to be  
Someone's drawing pictures in the hallway  
Leave a light on, but the shadow is all I see

She will leave, disappear  
Just like that and not come back  
Never trace another tear  
Cross her hardened heart  
Off to see another world  
Maybe find a brand new love  
Maybe find someone to help her through eternal darkness

She will leave, disappear  
Just like that and not come back  
Never trace another tear  
Cross her hardened heart  
Off to see another world  
Maybe find a brand new love  
Maybe find someone to help her through eternal darkness

Keep an eye out for the stowaway  
Leave a light on for the stowaway  
Keep an eye out for the stowaway  
Leave a light on for the stowaway
