

# Autonomy (Slave)

Samm Henshaw

Need laws of my own  
No foreign guidance to direct me  
This place is my home  
Built here to protect me  
So tell me why, I'm running back to your authority  
You move my mind, from the weakest part of me

I don't need nothing more  
Than the time of day  
With the freedom to fall  
And falling straight

I don't wanna be a slave  
I don't wanna be a slave  
A slave to what we've done  
I don't wanna be a slave  
To save  
No, I don't wanna be a slave

No matter what we've been told  
Gotta keep moving on  
We'll keep making the moat  
Til the boundary's gone  
So tell me why our voices cannot be heard  
And who decides just what we've left to learn

I don't need nothing more  
Than the time of day  
With the freedom to fall  
And falling straight

I don't wanna be a slave  
I don't wanna be a slave  
A slave to what we've done  
I don't wanna be a slave  
To save  
No, I don't wanna be a slave

And who are we to say that this is a way to go  
And every freedom makes a choice to take control  
And who are we to say that this is a way to go  
When every freedom makes a choice to take control

I don't wanna be a slave, no no  
I don't wanna be a slave  
A slave to what we've done  
I don't wanna be a slave  
To save  
No, I don't wanna be a slave
