

# Doubt

Samm Henshaw

Down

I ain't been sleepin' for weeks  
Searchin' for my independence, manifested in weed  
My old man, see he invested in me  
Another penny in the well though, oh well so  
Oh brother  
You don't need what I need  
The thing you take for granted, that's a blessin' to me  
You don't see what I see  
I run to work, run a marathon  
And in the end I'll still come second to me

But it ain't too high to touch  
And it ain't that deep to fall  
See, faith won't pay the bills  
But doubt won't save us all

We alright

We alright, we alright, we alright  
We alright, we alright, we alright  
She alright, he alright, we alright  
We alright

My grandad used to say we could've been born left  
Haha, but we alright, yeah  
Ooh

I could've really fell  
I could've been in prison, could've been in hell  
I could've been in heaven, I could've been on bail  
I'm from Tottenham so I could've been Adele  
Nah I couldn't be a girl  
I had a pastor but he couldn't really help  
My papa didn't preach and my mama couldn't tell  
I had my back on the wall  
With my Vans off the Wall  
MJ off the wall, on the wall  
Show me I'm possible, on the ball  
I move Messi but I'm tidy  
I had to clean up the Grime scene  
We were bumpin' the underground  
Now the fees over pricye  
To the bank LOL, never take an L, this ain't Dave Chappelle  
Cheese, Babybell for my baby girl  
It's my baby's world  
And if you win like you knew you won  
You won't come second to anyone  
Say "the sky's the limit"  
But we've got her here with us

But it ain't too high to touch  
And it ain't that deep to fall  
See, faith won't pay the bills (oh yeah)  
But doubt won't save us all (oh no)  
Ain't too high to touch  
And it ain't that deep to fall  
See faith won't pay the bills (oh yeah)

But doubt won't save us all

We alright  
We alright, we alright, we alright  
We alright, we alright, we alright  
We alright, we alright  
She alright, he alright, we alright  
We alright, we alright  
We alright  
We alright, we alright

But it ain't too high to touch (high to touch)  
And it ain't that deep to fall (oh-oh yeah)  
See, faith won't pay the bills (won't getcha paid now)  
But doubt won't save us all  
Ain't too high to touch (ain't too high)  
And it ain't that deep to fall (oh yeah-yeah)  
See faith won't pay the bills (yes it will)  
But doubt won't save us all (oh somebody save me)

We alright  
We alright, we alright, we alright  
We alright, we alright, we alright  
She alright, he alright, we alright  
We alright

We alright (my papa told me, yeah)  
We alright, we alright, we alright (my baby told me, yeah)  
We alright, we alright, we alright  
She alright, he alright, we alright  
Huh, we alright  
(It shouldn't be about people, it should be about change)
