

# Friend Like You

Sammie

Oooh Oh (Oh percious)  
oh precious  
yeah yeah yea  
ohhhhhhhhhhhh

As I walk into my bedroom I see pictures  
On my wall, a collection of memories  
The county fair, a movie there  
Some we don't remember where  
They won't let me forget the time we shared  
You know I'm always thinking of you  
No matter what the time, the day, or place  
'Cuz you were my friend when there was no others  
And all of my love for you can never be erased  
no ohhhhhh

No I never had a friend like you  
And I hope we stay together  
And somehow we're gonna make it through  
And you'll be my friend forever  
No matter how far away  
You will always have a special place  
'Cuz I never had a friend like you  
No I never had a friend like you

It feels good to know you're only a call away  
I reminise about the times when we would play  
At the bus stop, at the park

To the mall, after dark  
And we knew we shouldn't be out that late, yeah baby  
Everybody has that special someone  
A friend like you  
And for me that someone was you  
For every storm that has approached us  
You never left my side and always kept it true  
I ain't never had a friend like you

A friend like you to guide me through my problems  
A friend like you  
A friend like you I can turn to, when life gets cold  
A friend like you who listens  
When there's, nothing left to say  
Imagining those things I used to say, as we played  
A friend like you, who I would cherish more, I  
A friend like you  
A friend like you, the one that made me care  
And every time I look into your eyes, I really see  
A friend like you to me, you'll always be, right there
