

# The Wait

Sammie

Been checking for you since I was young was just a boy then  
Then I tried again in high school, you had a boyfriend  
Then you went off to college and I pursued this music shit  
You got a full scholarship I made it yeah I'm doing it  
But I'm tired of groupies I'm so tired of losing  
I'm so tired of thinking I'm so tired of wishing  
Girl I'm reminiscing  
Bout what we could've been should've been maybe  
But I kept my heart to myself, baby I waited

I waited on (you, you, you)  
I waited on (you, you, you)  
You never switched up on me  
You  
So happy you my girl now  
I'm on top of the world now  
I waited on
