

# Used To

Sammie

(Rock Me Baby)

All I have is, these memories, no they won't fade  
And these four walls, they're closing in on me  
I'm trapped in a cage  
These thoughts in my mind, leave 'em behind  
It's killing me, look at my face  
Really babe, look at my eyes  
Yeah, face to face, and tell me you don't

Think about how we used to  
Lay up in the sheets and we talk about life  
And how we made love till the sun came up  
And how you took the covers yeah, through the night  
Oh baby, you were my baby  
Why me? It's clear to see  
That, love don't remain  
I'm stuck here thinking 'bout, thinking how we used to be  
I know I ain't used to, used to  
Thinking 'bout, thinking how we used to be  
I know I ain't used to, used to  
Thinking 'bout, thinking how we used to be  
Was it something I did? Was it really that bad?  
Was it something I said? Cause became  
fast, get you out of my head  
Thinking how we used to be

We had magic  
I would finish your sentence, and you'd finish mine  
I always thought it would be you at the finish line  
Remember when we used to laugh over dinner time  
Now we don't even talk no more  
Our paths, no they don't cross no more  
When you left me girl, I lost my glow  
Baby girl I lost my soul  
Tell me that, tell me that you don't

Think about how we used to  
Lay up in the sheets and we talk about life  
And how we made love till the sun came up  
And how you took the covers yeah, through the night  
Oh baby, you were my baby  
Why me? It's clear to see  
That, love don't remain  
I'm stuck here thinking 'bout, thinking how we used to be  
I know I ain't used to, used to  
Thinking 'bout, thinking how we used to be  
Know I ain't used to, used to  
Thinking 'bout, thinking how we used to be  
Was it something I did? Was it really that bad?  
Was it something I said? Cause became  
fast, get you out of my head  
Thinking how we used to be

Will you agree to disagree baby?  
Is it really best to leave baby?  
Is it you or was it me baby?

Love is blind, I cannot see baby  
Ah yeah, nooo, ohhh-ohh-oh-oh, yeah  
Tell me how it used to be, yeah

I know I ain't used to, used to  
Thinking 'bout, thinking how we used to be  
Know I ain't used to, used to  
Thinking 'bout, thinking how we used to be  
Was it something I did? Was it really that bad?  
Was it something I said? Cause became  
fast, get you out of my head  
Thinking how we used to be  
I know I ain't used to, used to  
Thinking 'bout, thinking how we used to be  
Know I ain't used to, used to  
Thinking 'bout, thinking how we used to be  
Was it something I did? Was it really that bad?  
Was it something I said? Cause became  
fast, get you out of my head  
Thinking how we used to be

Yeah, I'm thinking how we used to be, ohh
