

I Want to Be with You

Sammy Davis, Jr.

I wanna be with you
I wanna be with you
After all the nights of wanting you
Lying there loving you
Hating you tonight
I'm touching you
Holding you
Well your gonna see
We'll make out somehow
Here's my girl and me
They cant hurt us now
We're gonna have it all

I'll love you everyday
Honey, life couldn't be
So great for us
Here's our chance
It's not to late for us
Grab it fast or life won't wait for us

I wanna be with you
I wanna be with you
Grab it fast or life won't wait for us
I wanna be with you
I wanna be
With you
I wanna be with you
