

It's A Musical World

Sammy Davis, Jr.

The world is made of music
Never any symphony
The sound surrounds
Miracles of melody
Are bound around us too

It's a musical world
Such a musical world

Listen to the rhythm
Of a storm in summer
Hear the mellow melody
When church bells chime
"Once upon a time"

It's a musical world
Such a beautiful world

Ding, dong, sing a song of spring and summer
Bring some summer song and opera new
I love music, and I know that you do too

It's a musical world
Such a beautiful world

Yeah

The world was made for music
Everything contributes to the rare concerto
Elephants and butterflies have their concertos too

It's a beautiful world
It's a musical world

Listen to the music of a lonely seashore
Hear a certain company to speak up for
Make it have an orchestra where every sound belongs

It's a musical world
Such a beautiful world

Ding, dong, sing a song of spring and summer
Sing some summer song and opera new
I love music, and I know that you do too

Yeah

It's a musical world

I love music, and I know that you do too
Yeah

It's a musical world
Such a beautiful world
