

## She Believes in Me

Sammy Davis, Jr.

She believes in me  
This man of little means  
This man of many dreams  
Just waiting to come true

She believes in me  
This man who justifies  
The love that's in her eyes  
With things I never do

And though I let her down  
She never wears a frown  
She turns my heart around  
Then helps my eyes to see

She believes in me  
And as we climb the stairs  
That leads to who knows where  
I know I'll never be

The man I think I am  
But I don't give a damn  
As long as she believes in me

I don't know who I am  
But I don't give a damn  
As long as she believes in me
