

# Growing Up

Sammy Hagar

Oh, yeah

See all the kids on the side street  
Hangin' 'round in their cars  
They're out makin' memories, yeah

See the girls in their summer clothes  
All the boys all rough and tough  
They just can't get enough, oh no

They're just growing up  
And they can't get around it  
They're just growing up, face the fact  
I'm so glad that I found out I must be growing up, uh

I never thought I'd want to settle down  
But her love just gets to me  
Kinda feels like the real thing, yeah

I'm feeling guilty about my friends  
Oh, they all say how I've been changing  
I'm just bored 'cause this old town  
It's got me down, oh, yeah

I'm just growing up  
Uh! I can't get around it, no  
Growing up, face the fact  
I'm so glad that I found out I must be growing up

Feels like I'm winding down or breaking loose  
I've put together a new plan, I'm stickin' to it  
At what point does this boy become a man

I'm just growing up  
No, I can't get around it  
Guess I'm growing up, face the fact  
I'm so glad that I found out, I must be... I'm just

Growing up, yeah  
We just can't get around it, oh no  
Growing up, face the fact  
Yeah, I'm glad that I found out I must be g-g-g

Growing up, yeah  
No, you can't get around it, no  
Growing up, face the fact  
I'm so glad that I found out I must be growing up
