Karma Wheel

Sammy Hagar

I can't close my eyes Feelin' what I see I turn away But still can see

I can't change the world But I can change my mind It's not enough It's not enough

Color your thoughts, color your speech Bury your head deep in a sleep Harden your shell, head in a hole

And it's haunting me
It's changin' me
Seems so unreal
This karma wheel

Run from your feelings Head in a hole Mind filled with power Out of control

The edge of depression Broken the seal, yeah No need for compression Nothing can heal

Roll the karma wheel Roll that karma wheel Roll that karma wheel

Roll that karma wheel Yeah, that karma wheel Roll with it

Out of control
Head's in a hole
Mind filled with power
Roll that karma wheel
