

Consequence

San Cisco

Looking deep into my eyes
Could you face the truth?
I know I've tried
I'm burning from the inside
And that's why

You can't get enough, it's your favourite distraction
Spend your time with me and you'd miss all the action
Let flames burn free
And don't worry 'bout no consequence
'Cause you've got nothing left

I don't think my lovin' is what you need
Like water into sand
You're sucking the life right out of me
Addiction to attraction
A physical reaction is what you need
Yeah, I remember when you were the better man

How can I help you now that your world's on fire?
You promised me you'd change
But the truth is you're a liar
I've seen you run, seen you run, seen you run around
Looking for reasons
Maybe you could sit still just a little while and talk to me

Yeah I know
You can't get enough, it's your favourite distraction
Spend your time with me and you'd miss all the action
Let flames burn free
And don't worry 'bout no consequence
'Cause you've got nothing left

I don't think my lovin' is what you need
Like water into sand
You're sucking the life right out of me
Addiction to attraction
A physical reaction is what you need
Yeah, I remember when you were the better man

Addiction, attraction
A physical recon is all you need
You don't know what you've got 'til it's gone
Put it all on me

Addiction, attraction
A physical recon is all you need
You don't know what you've got 'til it's gone
Put it all on me
