

# The Water

San Cisco

You hold on to me  
Like an anchor in the water  
You told me you feel  
You're feeling colder than the water

Float with me, you me  
To let me hold you like the water  
There's hope when we see the lights  
Of the city on the water

Now we never saw it coming  
Our lies revert to nothing  
It's alright if I still got you  
And I'll never stop running  
I'm trying to recover  
That feeling of when I'm with you

What comes between us  
Is like wire on the border  
You're close enough to feel  
But you're tied up with your people

It's much, too much for me  
When your world's upon my shoulders  
I don't believe they know  
What it's like out on the water

Now we never saw it coming  
Our lies revert to nothing  
It's alright if I still got you  
And I'll never stop running  
I'm trying to recover  
That feeling of when I'm with you

Now we never saw it coming  
Our lies revert to nothing  
It's alright if I still got you  
And I'll never stop running  
I'm trying to recover  
That feeling of when I'm with you

I don't think we  
Could feel anymore unwanted  
Feel her heart sink  
To depths you can't imagine

Now we never saw it coming  
Our lies revert to nothing  
It's alright if I still got you  
And I'll never stop running  
I'm trying to recover  
That feeling of when I'm with you
