

Under The Light

San Cisco

You never know if it is fake or love
You never know if it is fake

A predilection for party
Yeah, I'm losing control of my body
Do you want me?
This could mean everything
Or we could feel nothing
Now that we are spinning around
My boundaries are dissolving

Under the light
You never know if it is fake or love
Between the lines
You never know if it is fake or love

Predisposition to someone I just met
If I let you touch my body
Would you dream of me instead?
Oh, there's nothing I regret
Now that we are spinning around
My boundaries are dissolving

Under the light
You never know if it is fake or love
Between the lines
You never know if it is fake or love

Under the light
With or without
With or without you by my side
With nowhere to hide
Letting the feelings hypnotize
I need you tonight
After the dark under the light
Under the light

Oh, don't worry 'bout tomorrow, we've got tonight
Well out there, our worlds collide all the time
You know that I could set your world on fire
It's up to you this time

Under the light
You never know if it is fake or love
Between the lines
You never know if it is fake or love
It's up to you this time
Under the guise
You never know if it is fake or love
Wondering why
You never know if its fake or love

Under the light
With or without
With or without you by my side
With nowhere to hide
Letting the feelings hypnotize

I need you tonight
After the dark under the light
Under the light
