

# Freedom (Yeah Yeah!)

San Fermin

I'm not worried 'bout the kids  
I'm not trying to make the lists  
I'm not chasing after sadness  
We can live and let it live  
We don't need some kind of myth  
Turning seabirds into sirens

So give it up, let it go  
No it's not what you hoped  
But there's freedom in it  
Live it up, it's a game  
This is what you became  
There's freedom in it

Freedom, yeah yeah!  
There's freedom in it  
Freedom, yeah yeah!  
There's freedom in it

I'm not worried 'bout the kids  
I'm not trying to make the lists  
There's no need to be exhausting  
We can live and let it live  
We don't need some kind of myth  
Turning seabirds into sirens

So give it up, let it go  
Though it's not what you hoped  
There's freedom in it  
Live it up, it's a game  
This is what you became  
There's freedom in it

Freedom, yeah yeah!  
There's freedom in it  
Freedom, yeah yeah!  
There's freedom in it

Why are you so unforgiving  
Killing time but never living  
All this freedom with no vision  
Set aside your inhibition  
Doesn't it get kinda boring  
Criticizing other stories?  
Let a little melodrama  
When it's about someone's mama  
Why are you so unforgiving  
Set aside your inhibition  
Anything can be forgiven  
If you feel you're really living  
If you feel you're really living

Freedom, yeah yeah!  
There's freedom in it  
Freedom, yeah yeah!  
There's freedom in it  
Freedom, yeah yeah!

Freedom, yeah yeah!
