

No Promises

San Fermin

Hey honey
Are you giving up
Hey honey
You look a little tired now

Wasn't very long ago
We were wolfing down America
Living in the undergrowth
And buzzing in the night

On and on and round and round we circle
Up and down we're floating on the tide

I won't promise you if you follow me around
I won't let you down, I won't let you down
Been wandering who's to say if we'll be found
No promises
No promises

Hey honey
I know it's been a while
Hey honey
I wouldn't blame you if you turned around

On and on and round and round we circle
Up and down we're floating on the tide

I won't promise you if you follow me around
I won't let you down, I won't let you down
Been wandering who's to say if we'll be found
No promises
No promises

Pack your bags
Leave your home
Drive all night
Do it for me

Pack your bags
Leave your home
Drive all night
Do it for me

Change your clothes
Hold your coats
Cut your ties
Do it for me

Wet your lips
Dry your tears
Drink your doubts
Do it for me

Waste your youth
Count your years
Lose yourself
Do it for me

I won't promise you if you follow me around
I won't let you down, I won't let you down
Been wandering who's to say if we'll be found
No promises
No promises

I won't promise you if you follow me around
I won't let you down, I won't let you down
Been wandering who's to say if we'll be found
No promises
No promises

Pack your bags
Leave your home
Drive all night
Do it for me
