

# Nothingness

San Fermin

And break  
Then you turn back to nothingness  
Never meant to hold on  
Do you only see projections  
Believe everyone  
Then you turn back to nothingness  
Never meant to hold on  
Never meant to hold on too long

Ricochet round and around  
Sliding up the walls and  
Falling down  
Every day bleeds to the next  
Give me your love  
And I'll give it a rest

And break  
Then you turn back to nothingness  
Never meant to hold on  
Do you only see projections  
Believe everyone  
Then you turn back to nothingness  
Never meant to hold on  
Never meant to hold on too long

Catapult, you see the future  
Washed out in smoke  
Bleary eyed  
I missed the joke, am I the punchline  
Am I just shit broke or are we fine

And break  
Then you turn back to nothingness  
Never meant to hold on  
Do you only see projections  
Believe everyone  
Then you turn back to nothingness  
Never meant to hold on  
Never meant to hold on too long
