

Open

San Fermin

Amory
Are you ready for me?
Is she gone?
Amory
In the moment I know
It hurts so bad

But I know you're alone
You've been going along
Feeling like everything
Feeling like everything's wrong

Open your mind
Let me in
Give me your mouth
Give me your skin

I am a ghost
At the controls
I have your body
I have your soul
You're letting go

Amory
Will you tell her for me
What we have done
Amory
I know you're capable
Of terrible things

And we've been here before
Don't act so alarmed
You know exactly
What you've been angling for

Open your mind
Let me in
Give me your mouth
Give me your skin

I am a ghost
At the controls
I have your body
I have your soul
You're letting go

Amory
Don't pretend to be scared
Of what you are

Open your mind
Let me in
Give me your mouth
Give me your skin

I am a ghost
At the controls

I have your body
I have your soul
You're letting go
