

Perfume

San Fermin

Are you okay?
Are you bruising heavy
I saw you go down

Were you left out?
Did you miss the ring
This time around the carousel

And I know I know I know
You've been down this road before
And I know I know I know
You get hurt and you ask for more

And I can smell it in your perfume
Spread your heartache in the air
Living hard is hard to do
Going out and getting nowhere

It's all perfume
It's all you do

Was it all wrong?
When the buzz wore off
Did it all come crashing down?

When you woke up
Did you feel brand new
Or did you recognize yourself?

And I know I know I know
You've been down this road before
And I know I know I know
You get hurt and you ask for more

And I can smell
Your perfume
And the boots
With the heels
Got your makeup on and
Got the look
In your eyes now

When you get
In a mood
You can lose
Anything that you put your mind to
That you put your mind to

And I can smell it in your perfume
Spread your heartache in the air
Living hard is hard to do
Going out and getting nowhere

It's all perfume
It's all you do

And I can smell it in your perfume

Spread your heartache in the air
Living hard is hard to do
Going out and getting nowhere

It's all perfume
It's all you do

And I can smell
Your perfume
And the boots
With the heels
Got your makeup on and
Got the look
In your eyes now

When you get
In a mood
You can lose
Anything that you put your mind to
That you put your mind to
