

# Brighter Days

San Holo

Vivid visions of us carry on  
Think I've found the light it's been so long  
I better hold on to this feeling before it's gone  
Whatever happened we both grew as time moved on, oh oh

Feels like I'm the only one  
Looking at blue skies, dreaming of old times  
Brighter days will come  
Looking at blue skies, with you in my mind  
I'm the only one  
Brighter days will come  
Am I the only one?  
Looking at blue skies, dreaming of old times

Brighter days, the days, the days come  
Brighter days, the days, the days come  
Brighter days, the days, the days come  
Brighter days will come  
(Dreaming of old times)

Brighter days, the days, the days come  
Brighter days, the days, the days come  
Brighter days, the days, the days come  
Brighter days will come  
(Dreaming of old times)

Flying high, I'm ten feet off the ground  
I see it all even when looking down  
Don't wanna hold on to the times you were around  
No longer hear your voice when there's no single sound, oh oh

Feels like I'm the only one  
Looking at blue skies, dreaming of old times  
Brighter days will come  
Looking at blue skies, with you in my mind  
I'm the only one  
Brighter days will come  
Am I the only one?  
Looking at blue skies, dreaming of old times

Brighter days, the days, the days come  
Brighter days, the days, the days come  
Brighter days, the days, the days come  
Brighter days will come  
(Dreaming of old times)

Brighter days, the days, the days come  
Brighter days, the days, the days come  
Brighter days, the days, the days come  
Brighter days will come

Brighter days, the days, the days come  
Brighter days, the days, the days come  
Brighter days, the days, the days come  
Brighter days, the days, the days come

Brighter days, the days, the days come

Brighter days, the days, the days come  
Brighter days, the days, the days come  
Brighter days will come
