

## Voices In My Head

San Holo

I've got voices in my head  
What to say when all is said  
I still try to understand  
Sometimes words just don't make sense

You say don't make my heart ache  
Don't make my heart ache, now  
You say don't make my heart ache  
We'll find a way somehow

I've been trying to forget  
All the voices in my head  
I've been trying to forget  
All the voices in my head  
I've got voices in my head

You've got voices in your head  
What to say when all is said  
When you try to understand  
But my words just don't make sense

I say don't make my heart ache  
Don't make my heart ache, now  
I say don't make my heart ache  
We'll find a way somehow

(We'll find a way somehow)

I've been trying to forget  
All the voices in my head  
I've been trying to forget  
All the voices in my head  
I've got voices in my head
