

without words

San Holo

I see you without words
I know you without speaking
I know what's been on your mind
And everything you're feeling
You hear me without words
You touch me without reaching
All the rhythms in my heart
And everything I'm feeling
I love the way it's feeling

Feeling, feeling
Feeling

I see you without words
I know you without speaking
I know what's been on your mind
And everything you're feeling
You hear me without words
You touch me without reaching
All the rhythms in my heart
And everything I'm feeling
I love the way it's feeling

Feeling, feeling

Even when you're gone
You will always be there
Even when you're gone
You will always be there
Even when you're gone
You will always be there
Even when you're gone
