

bipping

sanah

Look at that, look at this
Check it out, check it out, check it out, all the bodies
Take it out, take it please

Take it out, take it out, take it out, all the parties
I don't know anyone
That would call, that would call, that would call to my baby
Take it out, take it please, all these ladies

Uh, got my bo-bo-bo-body beating
Hear it out I got no, no, no, no, no friends hearing
Yeah, I know that, the-the-the-the-there's somebody
I look alright, but I was crying all night

We were dancing all night but your phone was bi-bi-bi-bi-
bipping
All the boys and the girls they look crazy, shi-shi-shi-shi-
shitting
It's all around you, honey, know, know, know about it
I'm trying hard but I can't fit where, where, where, where you've been

Ooh, ooh
Ooh, ooh

Put it out, all of this
Put it out, put it out, put it out, if you want it
Now I know, you will find, all around, all around, all around, something more, yeah
Now you still fool around, and the girls, and the girls, and the girls are crying
Take it out, take it please, I'm sure you're lying

Uh, got my bo-bo-bo-body beating
Hear it out I got no, no, no, no, no friends hearing
Yeah, I know that, the-the-the-the-there's somebody
I look alright, but I was crying all night

We were dancing all night but your phone was bi-bi-bi-bi-
bipping
All the boys and the girls they look crazy, shi-shi-shi-shi-
shitting
It's all around you, honey, know, know, know about it
