

In Love With A Stranger

sanah

I'm going back to the past
There's nothing holding me back
I fell in love with a stranger
I tried to hold you tonight
But then I thought I would drown
I fell in love with a stranger

I never wanted to go
These days are hard for so long
I'm going back to the start now
You told me I wouldn't fall
Then let me drown all alone
Think we should run to the start now

I'm going back again
To the place we met
We are the stars
We are the flames
We are the kings

I'm going back again
To the place we met
We are the stars
We are the flames
We are the kings

Steps what we took made me hurt
I stood there crying when you left
How was I supposed to get through
My cheeks got used to the wet
Each word now sounds like a threat
And still I don't wanna lose you

I'm going back again
To the place we met
We are the stars
We are the flames
We are the kings

I'm going back again
To the place we met
We are the stars
We are the flames
We are the kings

We are the kings
We are the kings
We are the kings
We are the kings
We are the kings

Can't let you forget me now
You're all that I've got
In love with a stranger

Can't let you forget me now
You're all that I've got

In love with a stranger

(We are the kings)

Can't let you forget me now
You're all that I've got
In love with a stranger

Can't let you forget me now
You're all that I've got
In love with a stranger

I'm going back to the past
There's nothing holding me back
I fell in love with a stranger
