

Insane

Sanctuary

Throw away the key and lock the door
insanity inside my head ? once more
I cannot see, the real world is gone
asylum for the twisted is my home

Deep in your heart there's the secrets you hide
deception is eating your mind
frustrated ...??
??

Inside my brain
I am insane
Inside my brain
I am insane

I can't survive in this living hell
take me away to my padded cell
(the... grows near??) and they call me liar
straight jacket bound, ...??

So silent (nightmare)...??
the torment of moral decline
a victim of (hatred?) you live on the line
(locked upstate?) with your own kind

Inside my brain
I am insane
Inside my brain
I am insane

[Guitar Solo]

Deep in your heart there's the secrets you hide
deception is eating your mind
frustrated ...??
??

Inside my brain
I am insane
Inside my brain
I am insane
Cry out in pain
I am a faceless name
Inside my brain
I am insane
