

Lazarus

Sanctus Real

Lord I was dead, buried deep
These weary bones were fast asleep
I heard Your voice calling me
This heart of stone began to beat

Up from my past, up from the grave
I'll never be the same, oh I'll never be the same

My testimony from death to life
You fill me up with holy fire
My testimony out of the dust
You raise me up like Lazarus
Like Lazarus

You lift my head, open my eyes
It's like seeing for the first time
Into my lungs You breathe new life
You say my name I come alive

Up from my past, up from the grave
I'll never be the same, oh I'll never be the same

My testimony from death to life
You fill me up with holy fire
My testimony out of the dust
You raise me up like Lazarus
Like Lazarus

New heart, new soul
New eyes, I've been resurrected
New start, new bones
New life, I've been resurrected
I've been resurrected
I've been resurrected

My testimony from death to life
You fill me up with holy fire
My testimony out of the dust
You raise me up like Lazarus
Like Lazarus
