

Home Will Find You

Sandi Patty

There's a place not far away
Forever and beyond
Where a morning star ignites the sky
With a light that need no sun
And if you walk with me
I'll gladly take you there
It's a land where dreams come true
And doubts are swept away
A homeplace to the traveler who's questioning this way
And if you're lost
The power of love will bring you home

Chorus:

It's a longing and the laughter
The voice that's calling you
To journey thru the night
It's the cry for ever-after
So reach and home will find you
Just reach and home will find you

Like the friendship of a family
As they gather 'round a fire
It's the warmth of that acceptance that everyone desires
And if you're cold
The homeplace burns with flames of love

And the hope that yearns for sunrise
Is the dream that beckons you
To scale a mountain height
It's the joy that lets the heart fly
So reach and home will find you
Just reach and home will find you

Come and see
Come with me

Repeat Chorus
