

Imagine (How God Can Sing)

Sandi Patty

Imagine how God can sing
How His voice delights the universe
With a range that blends eternally
Into chords of His love

Imagine how God can dance
Moving gracefully up to our hearts
To invite us to be intimate
And share in His joy

Then imagine how God must feel
If we move back away from Him
To design our own destinies
Shaping lives of desiring and fear

Then imagine God's happiness
When a wanderer cries out to Him
For the peace that only He can give
For the strength He grants to truly live
And when the choice is made to look to Him
And finally draw near
